EDUCATION

CyberTex Institute of Technology, Austin, TX — Network Engineer Program - Vocational Cert - Oct 2025

American Military University — Associate of Arts, General Studies - Feb 2020

CERTIFICATIONS

CompTIA Security+, CompTIA CySA+, CompTIA Network+, AWS Cloud Practitioner, MS Azure Fundamentals, CompTIA Server+ CompTIA A+, Cisco CCNA – In Progress

EXPERIENCE

Global Help Desk Support — Apex Systems Contractor - Whole Foods Market/Amazon OTS Nov 2025 - current

- Provided Tier 2 technical support for Whole Foods Market's US, UK, and Canada operations, resolving 12+ tickets daily and remotely supporting over 500 devices in a high-volume call center environment.
- Administered Azure Active Directory tasks including MFA resets, account unlocks, and security verifications via jump server.
- Managed corporate devices through Microsoft Intune, including enrollment via AutoPilot, configuration, compliance verification, and remote re-imaging.
- Supported enterprise printing infrastructure by configuring network settings, adding printers to file shares via print jump server, and performing basic printer troubleshooting.
- Partnered with global IT teams to implement / streamline processes and ensure compliance with corporate technology standards.
- Diagnosed and resolved issues with Whole Foods-specific applications, ensuring minimal downtime and continuity of business operations.

Network Operations Manager — U.S. Marine Corps Mar 2021 – Dec 2023

- Led deployment and maintenance of enterprise communication systems, including routers, switches, encryption devices, end devices, and cabling, supporting 12 U.S. and multinational training operations.
- Enhanced network security with IPsec, VLAN segmentation, ACLs, SSHv2, and port security configurations.
- Utilized the Defense Information Systems Network Transit Enterprise backbone to ensure secure, global communications.
- Implemented fiber connections as the primary high-capacity transport network, with satellite communications using Time Division Multiple Access (TDMA) and Frequency Division Multiple Access (FDMA) as a redundant transport for enhanced reliability.
- Configured routers, switches, CUCM, CME, VTC systems, and collaborated with NOC to establish secure DMVPN tunnels and SIP Trunk connectivity, achieving 98% uptime for classified and unclassified networks.
- Integrated TACLANE KG-175D and KG-250X/XS encryptors with routers for secure end-to-end IP encryption.
- Managed imaging and integration of 10–300 HDDs for rapid deployment of classified networks across 12 operations.
- Supervised resolution of 400+ trouble tickets spanning 12 operations lasting 2–6 weeks each.
- Developed and delivered a 12-lesson Networking Fundamentals course, training 130 personnel over 2 years, boosting operational efficiency by 30%.

Telecommunications Systems Operator & Installer — U.S. Marine Corps Oct 2014 – Aug 2017

- Installed and maintained voice circuits, Cisco Unified Call Manager, and Video teleconference systems for reliable communication.
- Managed full lifecycle of cabling infrastructure, terminating and testing Cat5/Cat6 and Fiber-optic cables to meet specifications.

SKILLS

Networking: WAN/LAN, DMVPN, VRF, Routing (EIGRP, BGP, OSPF), VLAN, DHCP, STP, TCP/IP, Wireshark

Security: IPsec, ACLs, SSHv2, port security, Vulnerability Scanning, TACLANE KG175D & KG250X/XS

Cabling: Fiber optic/Cat5/Cat6 cable termination & Installation.

Unified Communications: CUCM, CME, VoIP, VTC, SIP, H.323, QoS

Systems and Infrastructure: Windows Server 2016/2019, Ubuntu Server, Active Directory, Group Policy Objects (GPOs), DNS, IIS

Cloud & Virtualization: Azure Entra ID (AA), Microsoft Intune, AutoPilot, Microsoft 365, Static Website Hosting, IAM/RBAC, Hyper-V, VirtualBox, Proxmox VE

Soft Skills: Program Management, Training & Development, Help Deks/ Service Desk, Collaboration, Mentorship
