Summary

Network Administrator and Marine Corps Veteran with 6+ years of technical experience configuring, securing, and managing enterprise network infrastructure. Skilled in Cisco networking, unified communications, and Tier 1&2 help desk support. Holds an active TS/SCI clearance and certifications from CompTIA, Azure, and AWS.

Certifications

CompTIA: Security+, CySA+, Network+, Server+, A+ | **AWS** Certified Cloud Practitioner | **MS Azure** Fundamentals

Education

CyberTex Institute of Technology, Austin, TX — Network Engineer Program - Vocational Cert - Oct 2025

American Military University — Associate of Arts, General Studies - Feb 2020

Experience

Enterprise Voice Engineer III — TEKsystems (Sub-contractor for Leidos on a DISA contract) Jul 2026 – Present

- Managed, troubleshoot and maintained enterprise voice, video, and data network infrastructure supporting DISA and DoD mission requirements.
- Administered and troubleshoot multi-vendor enterprise infrastructure, encompassing Cisco and Juniper routing, switching, and next-generation distributed firewalls.
- Provisioned and deprovisioned end user devices within Active Directory and SCCM.

Global Help Desk Support — Apex Systems (Whole Foods Market / Amazon OTS Contractor) Nov 2025 – Jun 2026

- Provided Tier 2 technical support for massive retail operations spanning US, UK, and Canadian operations, efficiently resolving 12+ technical tickets daily and remotely supporting 500+ devices in a high-volume call center environment.
- Managed account administration via Azure Entra ID and on-premises Active Directory through secure jump servers; resolved account unlocks, MFA resets, BitLocker key retrievals, and security group modifications.
- Executed hardware lifecycle updates via Microsoft Intune and Autopilot enrollment.
- Resolved Layer 1 connectivity issues, provisioned devices in FreePBX, managed M365 registrations, and ran Exchange message traces for email troubleshooting.

Network Engineer Student — CyberTex Institute of Technology, Austin, TX Oct 2024 – Oct 2025

- Earned 7 industry certifications across CompTIA, AWS, and Microsoft Azure while completing full-time hands-on technical training.
- Designed and simulated a secure multi-campus network with 150+ end devices in Cisco Packet Tracer, configuring mGRE, VLANs, DHCP, VoIP, ACLs, QoS, and STP with full documentation.
- Deployed a Proxmox VE server hosting Windows and Linux services (DNS, DHCP, IIS, NGINX, MariaDB) within a segmented network topology featuring a jump box, custom firewall rules, and SSH access controls.
- Built and administered Active Directory environments across Hyper-V and VirtualBox VMs to manage user accounts, implement Group Policy Objects (GPOs), and enforce security controls.

Network Operations Manager — U.S. Marine Corps Mar 2021 – Dec 2023

- Configured and maintained enterprise network infrastructure including Cisco routers & switches, encryption devices, and structured cabling across 12 U.S. and multinational training operations.
- Collaborated with the NOC to establish secure DMVPN tunnels and SIP Trunk connectivity, following Security Technical Implementation Guide, sustaining 98% uptime across classified and unclassified networks.
- Administered Cisco Unified Communications systems (CUCM/CME/VTG) for reliable VoIP and video communications.
- Hardened network security through IPsec, ACLs, VLAN segmentation, SSHv2, and port security, ensuring compliance with DoD security standards.
- Integrated hardware-based IP encryptors (TACLANE KG-175D and KG-250X/XS) with routing infrastructure to provide certified end-to-end encryption for sensitive data.
- Deployed a hybrid transport architecture utilizing fiber as the primary high-capacity backbone, with satellite (TDMA/FDMA) as redundant failover improving overall network reliability and resilience.
- Designed and executed a comprehensive 12-lesson technical training curriculum covering Cisco Networking Fundamentals upskilling 130 junior administrators, reducing configuration errors by 30% over a 2-year period.
- Managed imaging and deployment of 10–300 hard drives per operation to rapidly provision classified network environments across 12 operations.

Telecommunications Systems Operator & Installer — U.S. Marine Corps Oct 2014 – Aug 2017

- Installed and maintained voice circuits, Cisco Unified Call Manager, Call Manager Express, and Video teleconference systems for reliable communication.
- Managed full lifecycle of cabling infrastructure, terminating, installing, patching, and testing copper and Fiber-optic cables to meet specifications.
- Configured device profiles, call search spaces, route plans, and partitions to optimize traffic routing.
- Supervised, trained, and mentored a team of 4 junior communications operators in tactical network deployment and standard operating procedures.

Skills

Networking: WAN/LAN, DMVPN, VRF, EIGRP, BGP, OSPF, VLAN, DHCP, STP, TCP/IP

Security: IPsec, ACLs, SSHv2, port security, Vulnerability Scanning, TACLANE Encryptors KG175D & KG250X/XS

Unified Communications: CUCM, CME, VoIP, VTC, SIP, H.323, QoS

Cloud & Virtualization: Azure Entra ID, Microsoft Intune, AutoPilot, Microsoft 365, Hyper-V, VirtualBox, Proxmox VE
