

JESUS ORTIZ

jgortiz96@gmail.com • 714.204.2999 • Austin, TX • linkedin.com/in/jesus-g-ortiz • **Active TS Clearance**

SUMMARY

Detail-oriented Network Engineer with over 5 years of experience configuring and securing LAN/WAN environments in high-stakes settings during 10 years of U.S. Marine Corps service. Proven success in implementing Cisco IOS configurations, DMVPN tunnels, and network hardening with VLAN segmentation, ACLs, and IPsec encryption. Holds active Top Secret Clearance and CompTIA/Azure certifications, supporting hybrid infrastructure and secure communications. Skilled in troubleshooting, documentation, and mentoring in mission-driven teams.

EXPERIENCE

Projects: View hands-on lab work, and technical documentation at https://jgortiz96.github.io/Professional_Portfolio/

Network Engineer Student — CyberTex Institute of Technology, Austin, TX Oct 2024 – Present

Capstone projects Completed

- Deployed an Azure-based IT services webpage using Static Website hosting and GitHub Actions for CI/CD. Built a Function App with HTTP trigger, Cosmos DB, and configured CORS, secrets, and IAM/RBAC roles.
- Implemented a Proxmox VE server hosting Windows/Linux services (DNS, DHCP, IIS, NGINX, MongoDB) with a secure network topology, Jump Box access, and segmented firewall rules.
- Conducted a cybersecurity analysis, simulating security operation center (SOC) operations with Kali for network discovery, AlienVault OSSIM for log ingestion, threat analysis, vulnerability scanning, and incident response documentation.
- Designed a secure multi-campus network in Cisco Packet Tracer, configuring mGRE, VLANs, ACLs, QoS, VoIP CME, STP, and DHCP across 150+ devices for enhanced segmentation and performance.
- Managed an Active Directory environment, implementing user account management, Group Policy Objects (GPOs), access controls, and security policies.

Network Operations Manager — U.S. Marine Corps Mar 2021 – Dec 2023

- Led deployment and maintenance of enterprise communication systems, including routers, switches, encryption devices, end devices, and cabling, supporting 12 U.S. and multinational training operations.
- Enhanced network security with IPsec, VLAN segmentation, ACLs, SSHv2, and port security configurations.
- Utilized the Defense Information Systems Network Transit Enterprise backbone to ensure secure, global communications.
- Integrated military base fiber connections and satellite communications using Time Division Multiple Access and Frequency Division Multiple Access for high-capacity transport networks.
- Configured routers, switches, CUCM, CME, VTC systems, and collaborated with NOC to establish secure DMVPN tunnels and SIP Trunk connectivity, achieving 98% uptime for classified and unclassified networks.
- Integrated TACLANE KG-175D and KG-250X/XS encryptors with routers for secure end-to-end IP encryption.
- Managed imaging and integration of 10–300 HDDs for rapid deployment of classified networks across 12 operations.
- Supervised resolution of 400+ trouble tickets spanning 12 operations lasting 2–6 weeks each.
- Developed and delivered a 12-lesson Networking Fundamentals course, training 130 personnel over 2 years, boosting operational efficiency by 30%.

Telecommunications Systems Operator & Installer — U.S. Marine Corps Oct 2014 – Aug 2017

- Installed and maintained voice circuits, Cisco Unified Call Manager, and Video teleconference systems for reliable communication.
- Managed full lifecycle of cabling infrastructure, terminating and testing Cat5/Cat6 and Fiber-optic cables to meet specifications.

EDUCATION

CyberTex Institute of Technology, Austin, TX

Network Engineer Program - In progress, Expected Oct 2025

LICENSES & CERTIFICATIONS

AWS Cloud Practitioner — Earned Sep 20025

MS Azure Fundamentals — Earned Aug 2025

CompTIA Server+ — Earned Aug 2025

CompTIA CySA+ — Earned Jul 2025

CompTIA Security+ — Earned May 2025

SKILLS

Networking Concepts: WAN/LAN, DMVPN, VRF, Routing (EIGRP, BGP, OSPF), VLAN, DHCP, STP, TCP/IP, Wireshark.

Network Security: IPsec, ACLs, SSHv2, port security, IPtables, UFW, TACLANE KG175D & KG250X/XS.

Infrastructure & Virtualization: Windows Server 2016/2019, MS Azure, Ubuntu Server, Active Directory, Hyper-V, VirtualBox, Proxmox VE.

American Military University

Associate of Arts, General Studies - Feb 2020

CompTIA Network+ — Earned Mar 2025

CompTIA A+ — Earned Jan 2025

CompTIA Linux+ — In Progress

Cisco CCNA — In Progress

Unified Communications: CUCM, CME, VoIP, VTC, SIP, H.323, QoS.

Cabling: Fiber optic/Cat5/Cat6 cable termination & testing.
