SUMMARY

Network Administrator and Marine Corps Veteran with 10 years of service, including 5 years configuring, securing, and managing enterprise Cisco network infrastructure in Military environments. Skilled in Cisco networking, unified communications, and Tier 1/2 help desk support. Holds an active TS clearance, and certifications from CompTIA, Azure, and AWS. Currently pursuing CCNA.

CERTIFICATIONS

CompTIA: Security+, CySA+, Network+, Server+, A+ | AWS Certified Cloud Practitioner | MS Azure Fundamentals

EDUCATION

CyberTex Institute of Technology, Austin, TX — Network Engineer Program - Vocational Cert - Oct 2025

American Military University — Associate of Arts, General Studies - Feb 2020

EXPERIENCE

Global Help Desk Support — Apex Systems (Whole Foods Market / Amazon OTS Contractor) Nov 2025 - Current

- Provided Tier 2 technical support for Whole Foods Market's US, UK, and Canadian operations, resolving 12+ tickets daily and remotely supporting 500+ devices in a high-volume call center environment.
- Administered Azure Entra ID and on-premises Active Directory via jump server, managing account unlocks, password resets, MFA resets, license and group verification, BitLocker key retrieval, and security group assignments for enterprise users.
- Managed endpoint lifecycle through Microsoft Intune, including AutoPilot enrollment, compliance verification, configuration, and remote re-imaging of corporate devices.

Network Engineer Student — CyberTex Institute of Technology, Austin, TX Oct 2024 – Oct 2025

- Earned 7 industry certifications across CompTIA, AWS, and Microsoft Azure while completing full-time hands-on technical training.
- Designed and simulated a secure multi-campus network with 150+ end devices in Cisco Packet Tracer, configuring mGRE, VLANs, DHCP, VoIP, ACLs, QoS, and STP with full documentation.
- Deployed a Proxmox VE server hosting Windows and Linux services (DNS, DHCP, IIS, NGINX, MariaDB) within a segmented network topology featuring a jump box, custom firewall rules, and SSH access controls.

Network Operations Manager — U.S. Marine Corps Mar 2021 – Dec 2023

- Configured and maintained enterprise network infrastructure including Cisco routers & switches, encryption devices, and structured cabling across 12 U.S. and multinational training operations.
- Administered Cisco CUCM, CME, and VTC systems; partnered with the NOC to establish secure DMVPN tunnels and SIP Trunk connectivity, following Security Technical Implementation Guide, sustaining 98% uptime across classified and unclassified networks.
- Hardened network security through IPsec, VLAN segmentation, ACLs, SSHv2, and port security, ensuring compliance with DoD security standards.
- Integrated hardware-based IP encryptors (TACLANE KG-175D and KG-250X/XS) with routing infrastructure to provide certified end-to-end encryption for sensitive data.
- Deployed a hybrid transport architecture utilizing fiber as the primary high-capacity backbone, with satellite (TDMA/FDMA) as redundant failover improving overall network reliability and resilience.
- Leveraged the Defense Information Systems Network (DISN) to enable secure, high-availability global communications across distributed operational sites.
- Spearheaded a 12-lesson Cisco Networking Fundamentals training program, upskilling 130 personnel over 2 years and driving a 30% improvement in operational efficiency.
- Managed imaging and deployment of 10–300 hard drives per operation to rapidly provision classified network environments across 12 operations.
- Led a helpdesk in diagnosing and resolving a queue of 400+ trouble tickets across 12 operations (2–6 weeks each), maintaining consistent SLA performance in high-tempo environments.

Telecommunications Systems Operator & Installer — U.S. Marine Corps Oct 2014 – Aug 2017

- Installed and maintained voice circuits, Cisco Unified Call Manager, and Video teleconference systems for reliable communication.
- Managed full lifecycle of cabling infrastructure, terminating and testing Cat5/Cat6 and Fiber-optic cables to meet specifications.

SKILLS

Networking: WAN/LAN, DMVPN, VRF, Routing (EIGRP, BGP, OSPF), VLAN, DHCP, STP, TCP/IP, Wireshark

Security: IPsec, ACLs, SSHv2, port security, Vulnerability Scanning, TACLANE KG175D & KG250X/XS

Cabling: Fiber optic/Cat5/Cat6 cable termination & Installation.

Unified Communications: CUCM, CME, VoIP, VTC, SIP, H.323, QoS

Systems and Infrastructure: Windows Server 2016/2019, Ubuntu Server, Active Directory, Group Policy Objects (GPOs), DNS, IIS

Cloud & Virtualization: Azure Entra ID, Microsoft Intune, AutoPilot, Microsoft 365, Hyper-V, VirtualBox, Proxmox VE
